
The Persian Handcrafted Collection 2026

Curated by TITES

A Living Heritage

Authentic Persian craftsmanship created by master artisans and nomadic communities across Iran.

Each piece reflects generations of cultural heritage, traditional techniques, and individual artistic expression, making every object unique and impossible to replicate exactly.

Why TITES

European Structure. Persian Authenticity.

TITES operates through a European commercial structure while maintaining direct access to authentic Persian artisan networks and traditional handcrafted textile collections.

This positioning allows us to combine refined international presentation standards with the cultural depth and material authenticity preserved within Persian weaving traditions.

Our collections are curated for galleries, boutique hospitality projects, collectors, interior designers, and international sourcing partners seeking both reliability and originality.

Why TITES

European Commercial Structure

Registered and operated through Greece for streamlined international trade coordination and European business reliability.

Authentic Persian Craftsmanship

Direct access to traditional Persian artisan communities and heritage weaving techniques.

International Export Standards

Refined packaging, logistics coordination, and export-oriented presentation prepared for international markets.

Curated Collection Approach

Carefully selected handcrafted pieces focused on material authenticity, decorative longevity, and collectible character.

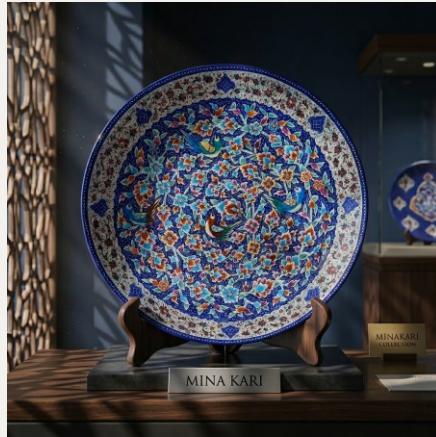

A Greek company offering authentic Persian craftsmanship through a refined international trade framework.

Curated Collections

Khatam Inlay

Persian Enamel Art

Engraved Metalwork

Qashqai Kilims

01 Silent Geometry

Defined by restrained tribal geometry and softened tonal transitions, this handwoven Qashqai kilim reflects the quiet depth of traditional nomadic weaving.

02 Heritage Play

Where traditional craftsmanship meets functional art. Each board is handcrafted by master artisans using techniques such as Khatamkari, wood inlay, carving, marquetry, and hand finishing transforming a timeless game into a collectible object

03 Persian Blue

Traditional Persian enamel artistry presented through layered blue tonalities, reflective detailing, and refined handcrafted precision.

04 Architectural Inlay

Intricate Khatam inlay craftsmanship shaped through geometric rhythm, material precision, and decorative restraint.

05 Aged Surface

Decorative Persian copperwork shaped through traditional metalworking techniques and naturally aged surface character.

06 Material Language

A closer exploration of woven texture, tonal irregularity, and the tactile character preserved within handwoven textiles.

07 Collected Traditions

Curated handcrafted objects selected for architectural interiors, boutique hospitality environments, galleries, and private collections.

08 Craftsmanship & Materials

Unlike mass-produced decorative objects, every piece in this collection bears the subtle marks of human craftsmanship. Variations in weave, texture, color, and finishing are not imperfections but evidence of authenticity and handmade character.

- Handwoven Construction
- Natural Dye Variations
- Artisan-Finished Details
- Traditional Weaving Techniques
- Curated Material Selection

09 Private Sourcing & Export

All items are professionally prepared for international shipment. Custom labeling, private collections, gallery sourcing, hospitality projects, and wholesale export programs are available upon request.

Looking Forward

Request our current collection catalogue, available inventory, and private sourcing services.

We trust this collection offers a refined introduction to the material depth, cultural continuity, and architectural presence of authentic Persian handwoven textiles.

For catalogue requests, detailed specifications, and international inquiries, our team remains available for further coordination.
