Who We Are

Reliable Supplier of Premium Botanical
Ingredients from ME

TITES is a European trading company specializing in sourcing and exporting premium botanical ingredients from carefully selected producers across the Middle East.

Operating through a European business structure while sourcing directly from carefully selected Middle East producers, we combine authentic raw materials with reliable export solutions.

Our commitment to consistency, quality and long-term partnerships enables us to support manufacturers, distributors and private label brands across international markets.

Why TITES

European Reliability. Direct Sourcing. Global Supply.

TITES is a European trading company specializing in the sourcing and export of premium botanical ingredients from carefully selected producers in Iran. Combining direct sourcing with reliable international trade, we support food, nutraceutical, cosmetic and pharmaceutical manufacturers with consistent products and responsive service.

European Commercial Structure

Operating through Greece, TITES provides transparent communication, reliable business practices and efficient international trade coordination for customers across Europe and beyond.

Direct Sourcing Network

We work directly with carefully selected producers, allowing us to maintain product consistency, dependable sourcing and close control over raw material selection.

Industrial Supply Solutions

From bulk supply and customized packaging to OEM and private label services, we provide flexible solutions designed for industrial manufacturers and international distributors.

Long-Term Partnership

Our approach is built on consistency, responsiveness and long-term cooperation, helping customers secure reliable botanical ingredient supply for sustainable business growth.

A European trading company connecting premium Iranian botanical ingredients with global industries through reliable sourcing and export solutions.

Product Portfolio

Premium Botanical Ingredients for Industrial Applications

Barberry Powder: Natural fruit powder with vibrant color and balanced tartness, suitable for food, beverage and functional product formulations.

Damask Rose: Naturally fragrant rose petals processed for food, tea, nutraceutical and personal care applications.

Saffron: Premium saffron selected for exceptional color, aroma and purity, suitable for premium food and beverage manufacturing.

Pomegranate Peel Powder: Botanical ingredient rich in naturally occurring plant compounds for food, nutraceutical and industrial formulations.

Date Seed Powder: Finely processed botanical powder with a naturally roasted profile for food, beverage and specialty nutrition applications.

Black Lime: Distinctive citrus ingredient providing natural acidity and aroma for seasoning blends, sauces and food manufacturing.

01 Barberry Powder

Produced from carefully selected barberries, our Barberry Powder is finely processed to preserve its natural color, balanced tartness and characteristic flavor.

Developed for industrial applications, it offers consistent quality and reliable performance across food, beverage and functional product formulations. Bulk supply, customized packaging and private label solutions are available upon request.

02 DATE SEED POWDER

Produced from carefully processed date seeds, our Date Seed Powder offers a naturally roasted aroma and excellent functionality for industrial food and beverage applications.

Its consistent quality and versatile profile make it suitable for specialty beverages, bakery products and functional food formulations. Bulk supply, customized packaging and private label services are available.

03 SAFFRON

Harvested from carefully selected saffron flowers, our saffron is recognized for its exceptional color strength, purity and delicate aroma.

Suitable for premium food and beverage manufacturing, it is supplied with consistent quality and export-oriented packaging for international markets.

04 DAMASK ROSE

Our carefully selected Damask Rose petals are gently processed to preserve their natural fragrance, appearance and botanical characteristics.

Suitable for food, herbal tea, nutraceutical and personal care applications, they are supplied with consistent quality for industrial use.

05 POMEGRANATE PEEL POWDER

Produced from selected pomegranate peels, this fine botanical powder is carefully processed to preserve its naturally occurring plant compounds.

Its versatility makes it suitable for food, nutraceutical and industrial formulations requiring consistent botanical ingredients.

BOTANICAL INGREDIENTS

NATURE. PURITY. PERFORMANCE.

06 BLACK LIME

Produced from premium dried black limes, this botanical ingredient delivers a distinctive citrus aroma with balanced acidity and rich flavor.

Suitable for seasoning blends, sauces and food manufacturing, it is supplied with consistent quality and flexible packaging options.

07 APPLICATIONS

Applications Across Industries

Our botanical ingredients are supplied to manufacturers across multiple industries, providing natural flavor, color and functional properties for a wide range of industrial formulations.

Designed for consistent performance and reliable sourcing, our products support manufacturers seeking high-quality botanical ingredients for commercial production.
